

Harnessing the sun can help you save money.

SOLAR POWER: NOW AVAILABLE AT SAN ANTONIO—AREA COMMUNITIES!

Solar power can make it easier for you to reduce electrical utility usage and save on your bills.

As energy utility prices rise, the electricity a solar power system produces increases in value. Solar electricity is a non-polluting power source that offsets peak electrical utility usage. The system has no moving parts and turns on automatically every day. Soak up the sun! Turn the power of Texas' sunlight into electricity for your home and reduce your electricity bills the natural way.

Visit one of these great KB Home communities and discover the amazing benefits of solar power:

Broker Cooperation Welcome. ©2011 KB Home (KBH). Standard solar power system is 1.4kWp. KBH makes no guarantee of energy production by the solar power system installed with a home or of any energy costs or potential savings by any homeowner. Energy costs and potential savings will vary by floor plan, home size, occupancy, appliance usage, thermostat settings, climate conditions and orientation of the home and solar energy system, among other factors. Payment of Broker Co-op requires Broker or agent to accompany and register buyer on first visit and comply with Broker Co-op Agreement. See Built to Order™ options and upgrades offered at KB Home Studio. All options/upgrades require additional charges, may require ordering at predetermined stages of construction and are subject to change/discontinuation anytime by KB Home. KB Home is not a custom homebuilder and Built to Order only applies to appliances/options available at KB Home Studio. Photo shows upgraded landscaping/options and may not represent communities' lowest-priced homes. See sales representative for details. SA-98592
